**Résumé** My motivation to design and explore diverse and inclusive environments with your team is based on my conviction that I see no end to opportunities to create an imaginative architecture that can shape people's lives. It says something about the influence and responsibility we have as architects to make things different. As an architect I have the passion for a "Right to the City for All" and designing alternative and creative uses of public spaces.

---

## Education

- Swiss Federal Institute of Technology (ETH) Zurich** 2017-2019  
Master in Architecture. Focus: public spaces
